Son Forat

The central area of Mallorca is one of the most beautiful and diverse regions, despite not having views of the sea and if you also want to enjoy authentic privacy and tranquility, Son Forat offers you an exceptional location. Surrounded by an immense land and just 2 km from the center of Santa Margarita. It is a finca that has a unique personality and design that you will not find on the island, it combines rustic style finishes and modern decoration. All the rooms are spacious and have various areas to rest, enjoy the views or play sports in its indoor gym. The exterior is simply fascinating, it has a large swimming pool and Jacuzzi, an outdoor sauna, a chill out and dining area and an immense and well-kept garden.
